

FAQs

How effective are homeopathic treatments like Neurexan™?

Modern Homeopathy, which is currently being practiced in more than 60 countries, has been proven effective in numerous clinical studies. Many internationally recognized medical journals - such as *Cancer*, *Lancet*, *Inflammation Research* and *European Journal of Heart Failure* - have already published the convincing study results of modern homeopathic combinations preparations.

How long will it take until I see improvement?

Therapeutic improvement typically occurs within 1-7 days. The rate depends on a number of factors including the amount of dosage, the condition being treated, and your age and overall health.

How often can I use Neurexan™?

Neurexan™ is safe to administer as necessary for all ages unless otherwise directed by a physician. As dosage differs depending on age, we recommend you follow the suggested dosage instructions on the packaging. Typical adult dosage is 1 tablet dissolved in the mouth three times during the evening.

Can I take other medications while using Neurexan™?

Yes. There have been no known instances of drug interactions.

Neurexan™

Neurexan™ is a doctor-recommended natural treatment ideal for addressing the symptoms of sleep disturbances affecting an estimated 50 to 70 million individuals in the U.S. Unlike conventional treatments which primarily suppress symptoms (prescription medications), **Neurexan™** works to restore the body's natural sleep cycle, therefore providing the body with renewed energy and mental clarity during the day, while allowing for gentle relaxation with a calm mind at night.

About Neurexan™

Neurexan's gentle combination formula consists of four natural active ingredients designed to facilitate the body's return to a pattern of restful sleep. These four ingredients have been proven successful in treating insomnia and various other sleep-related disturbances. The inclusion of multiple active ingredients represents the modern approach to homeopathic treatment employed worldwide by Heel.

Neurexan™ can help put an end to the cycle of high stress, nervous restlessness and poor sleep patterns. The body inherently desires to be relaxed at all times, and with the support of **Neurexan™** during nighttime hours, you can better achieve this state naturally, and without unwanted side effects or the risk of habituation commonly associated with many prescription sleep aid products.

Neurexan™ is suitable for long-term use and is safe for the whole family, including children and seniors. Additionally, there are no known contraindications, making **Neurexan™** safe to take in conjunction with other medications. As is the case with all Heel medicines, **Neurexan™** is regulated by the FDA as a drug and is therefore held to homeopathic pharmaceutical safety and efficacy standards.

There is a rare risk of side effects. Consult your doctor for the potential of any drug interactions. There is no habituation associated with the use of Neurexan™.

Natural Alternative to Conventional Sleep Aids

Product benefits:

- ➔ Non-addictive formula
- ➔ Safe for use with other medications
- ➔ Improves physical & mental well-being
- ➔ Stabilizes the sleep cycle
- ➔ Appropriate for all ages
